REMOVE + REPLACE | Story body copy

All FIVE marketing-business paragraphs shown in the two columns, including references to founders, strategy, Canva and Notion.	DELETE all five existing paragraphs. Paste the THREE exact wedding-studio paragraphs on page 4 of this PDF.

IMPORTANT: Replace the story as one complete block. Do not try to keep parts of the old text or combine agency copy with wedding copy.

OUR STORY: REMOVE EXACT TEXT

All five existing paragraphs. Every paragraph below must be deleted from the website.

REMOVE | OLD P1 | Left column

> Le PhotoGRAM began the way most good things do: a late-night idea, a blank roll, and a vision that felt bigger than just another freelance project.

REMOVE | OLD P2 | Left column

> At the time, I was juggling client work, trying to piece together what I actually wanted to build.

REMOVE | OLD P3 | Left column

> The more I talked to founders — smart, creative, mission-driven people — the more I realized how many were stuck doing everything themselves. No real strategy. No support that actually fit. Just vibes, Canva, and burnout. I didn't want to build an agency that made things look good on the surface.

REMOVE | OLD P4 | Right column

> I wanted to build something that helped people feel clear, confident, and calm in their business. A place where strategy was thoughtful, design had purpose, and founders felt seen — not just sold to.

REMOVE | OLD P5 | Right column

> What started as a solo venture slowly grew into a small, scrappy, brilliant team. People who care deeply, work with intention, and know how to get things done. We do this work because we believe good marketing starts with clarity, not an unstructured Notion board. And when you have the right strategy? Everything else flows.
