Frequently Asked Questions

Final copy for the website designer | 10 FAQs | Puducherry, India

01. How far in advance should we book our wedding photography?

We recommend getting in touch as soon as your wedding date is confirmed. Popular dates and auspicious muhurtham days can book up early. Share your date, venue and planned celebrations with us, and we'll check our availability.

02. How does the booking and payment process work?

A **10% booking advance** of the total package amount is required to confirm your event date.

- **10% booking advance:** Payable when confirming your booking.
- **75% event payment:** Payable one day before or on the event day, once the event is confirmed to proceed. This brings the total paid to 85%.
- **15% final payment:** Payable after delivery of the agreed final photographs and films.

03. What is your cancellation, refund and rescheduling policy?

We understand that plans may change. Our refund policy is based on the amount paid at the time of cancellation:

- **After paying the initial 10% advance:** We refund **5% of the total package value** and retain the remaining 5%, regardless of the cancellation reason.
- **After paying 85%, for a genuine emergency or unavoidable circumstance:** We refund the **full 85% already paid**.
- **After paying 85%, for other cancellation reasons:** We refund **50% of the amount paid** (equivalent to 42.5% of the total package value).

If you need to reschedule, please contact us as early as possible. Alternative dates are subject to availability and mutual agreement.

04. Will you guide us during the shoot or capture natural moments?

Both. Our approach combines candid storytelling with gentle creative direction. We document genuine emotions and spontaneous moments, while offering guidance for portraits whenever needed so you can feel comfortable in front of the camera.

05. Do you cover traditional South Indian wedding ceremonies?

Yes. We photograph and film South Indian wedding traditions and celebrations, including engagements, Nalangu, Mehendi, Muhurtham ceremonies and receptions. We focus on the rituals, family connections and emotions that make each celebration meaningful.

06. Can we choose the music for our wedding film?

Yes. We encourage you to share your favourite songs and musical preferences. Approximately **75% of the music selection** is guided by your preferences. Our creative team selects the remaining portion when needed to suit the film's story, pacing or editing style. All music choices are subject to copyright and licensing requirements.

07. How many photographs will we receive, and when will they be delivered?

The number of final images and the delivery timeline depend on your event schedule, coverage duration and selected services. We discuss and agree on the expected deliverables and timeline with you based on your requirements.

You will be able to select photographs from the usable images captured at your event. Blurred, poorly framed or technically unusable images are excluded. The selected photographs are then professionally edited and colour-corrected.

08. Will we receive RAW photographs or original video footage?

No. We do not provide RAW photograph files or original, unedited video footage. Clients receive their selected, professionally edited and colour-corrected photographs, along with the completed wedding films included in the agreed package.

09. Do you travel for weddings and destination celebrations?

Yes. Le Photogram is based in Puducherry and provides wedding photography and filmmaking services across Tamil Nadu and throughout India. **Destination wedding coverage is also available**, subject to discussion and confirmation of the location, travel logistics, visa requirements where applicable and our availability.

Travel and accommodation expenses are to be covered by the client.

10. How many photographers and filmmakers will cover our wedding?

Every celebration is different. The number of photographers and filmmakers depends on your event schedule, guest count, venues and chosen coverage. We discuss your requirements and arrange a suitable team for your celebrations.

Designer note: Replace the current FAQ questions and answers with these 10 entries. Do not include separate FAQs asking whether pre-wedding or maternity/baby services are available; these are already presented on the Services page.
