02. Remove Super-8mm, analog-film, Italian-album and digital-vault claims unless the studio actually offers them.

03. Replace the unrelated property/architecture image in service 02 and use real studio work in all service cards.

04. Keep the existing premium white / burgundy design and alternate image / copy positions across the cards.

05. All enquiry buttons must open a working contact, booking or WhatsApp destination. Confirm the correct target with the studio.
